Open to interesting conversations

PORTFOLIO

SILLY GOOSE

Brand engineer, host & observer

Explore my work ↗

BRAND ENGINEER

I engineer brands, build digital things, bring people together, and find stories in the in-between.

SILLY GOOSE · SELECTED WORK / 2026

THE PERSON BEHIND THE PROJECTS

HELLO, I'M TOMSON J FINOSH

AKA SILLY GOOSE

Part builder, part storyteller, always curious. I work where brand engineering, AI and digital experiences meet—and where an idea starts becoming something people can actually use.

For the past few years, I've also been hosting and organising events. I love the human side of making things: bringing a room together, getting the details right, and giving people something to remember.

Away from the screen, it's photography, psychology, research, poetry and classic literature. Different mediums. The same need to look a little closer.

↘

Somewhere between a carefully built system and a beautifully unfinished sentence.

My writing →

MANY HATS. ONE MIND.

A multidisciplinary practice, held together by curiosity.

01 **Events & experiences**
Hosting · organising · bringing people together

02 **Marketing & brand**
Positioning · audience · a story worth telling

03 **AI & digital products**
Agentic systems · interfaces · useful experiments

04 **Photography & observation**
Light · composition · the overlooked details

05 **Research & writing**
Questions · connections · words that stay

GOOD IDEAS NEED GOOD TOOLS

IDEA → REALITY

A mix of creative thinking and hands-on building. These are the tools behind my public projects.

HUMAN SIDE

01	Creative direction
02	Event hosting & organising
03	Brand storytelling
04	Research & synthesis
05	Writing & observation

DIGITAL SIDE

01	React + TypeScript
02	Python & AI agents
03	Kotlin & Jetpack Compose
04	Figma & design systems
05	Vite, Next.js & Vercel

✳ React ✳ TypeScript ✳ Python ✳ Figma ✳ Kotlin ✳ Next.js ✳ Vercel ✳

THE APPROACH

Start with a question. Make something tangible. Keep paying attention.

THINK DEEPLY. MAKE THOUGHTFULLY. KEEP EXPLORING.

GOOD PEOPLE. GREAT ENERGY.

I organise events where people meet, learn, compete and build. From IEDC hackathons to college workshops and community gatherings, these are the events I've helped bring to life.

THE EVENT ARCHIVE

EVENTS I'VE HELPED

CAMPUS INNOVATION & ENTREPRENEURSHIP

IEDC

MAY 2024

Eden 3.0

All Kerala hackathon.

AUG 2024

Shalyam 1.0

Ideathon.

FEB 2025

The Perfect Trajectory 3.0

All Kerala IEDC leads meetup.

BRING TO LIFE.

Each block names the event, its date and the format.

MAR 2025

Level Up

Game development workshop.

JUN 2025

Eden 4.0

All Kerala hackathon.

JUN 2025

Forge

All Kerala IEDC nodal officers meetup.

AUG 2025

Shalyam 2.0

Ideathon.

JUL 2026

The Perfect Trajectory 4.0

All Kerala IEDC leads meetup.

AUG 2026

One Student One Idea

Idea Box.

SEP 2026

Wellness Without Walls

All Kerala, eight-day health awareness challenge.

COMMUNITY PROGRAMMES

College communities

TEJUSVI

Inter-College Valorant Tournament

College fest · Senate member.

IIC

Internal Smart India Hackathon

Internal innovation programme.

FOSS CLUB

Project Hour

Ideathon.

FOSS CLUB

Introduction to AI and its Possibilities

Talk session.

FOSS CLUB

Python Unleashed

Machine learning workshop.

IEEE SB

Travancore Hub Meet 2025

Community meetup.

BEYOND CAMPUS

Outside communities

2026

Olam 2026

Community event.

COMMUNITY

Navranga

Outside-campus community event.

RESEARCH IN PROGRESS

WHAT I’M CURRENTLY RESEARCHING.

Two ongoing writing and research directions about work, identity and how brands earn attention.

01

Modern Way Of Hiring

I’m researching and writing about portfolio-based hiring: how projects and proof of work can help people demonstrate their abilities beyond a CV.

RESEARCH / WRITING IN PROGRESS

02

The New Era Of Marketing

I’m researching and writing about brand engineering: how positioning, design and customer experience work together to build a brand.

RESEARCH / WRITING IN PROGRESS

06 / SELECTED WORK

BUILT WITH CURIOSITY

LESS TALK. MORE MAKING.

From AI companions to event platforms. A selection of things I’m building, exploring and sharing in public.

01 / MARKETING × AI ↗

neuro.ad

An ad-tech frontend for a landing page, workspace and fixture analysis. The public repository describes it as a frontend with no backend.

REACT · ADVERTISING · INTERFACE

02 / MOBILE × AI ↗

DOT

An Android-first personal productivity AI agent. Local-first architecture, typed tools and carefully controlled actions.

KOTLIN · ANDROID · AI AGENT

03 / EVENTS × PRODUCT ↗

MakeYourPass

A campus event platform for organisation portals, ticketing, QR check-in and a live host dashboard.

TYPESCRIPT · REACT · EVENTS

04 / SYSTEMS × INTERFACE ↗

Refro

A local dashboard for DeepSeek Harness: chat, one-click tasks, skills, apps and automations in a single workspace.

REACT · TYPESCRIPT · VITE

05 / VOICE × AI ↗

echo / sheleftme

A voice and chat companion with local speech-to-text/text-to-speech, retrieval-augmented responses and crisis guardrails.

PYTHON · VOICE · RAG

06 / AGENTS × MEMORY ↗

Agent Vault

A local-first memory layer for coding agents: a quiet watcher, markdown vault and dashboard without an Obsidian dependency.

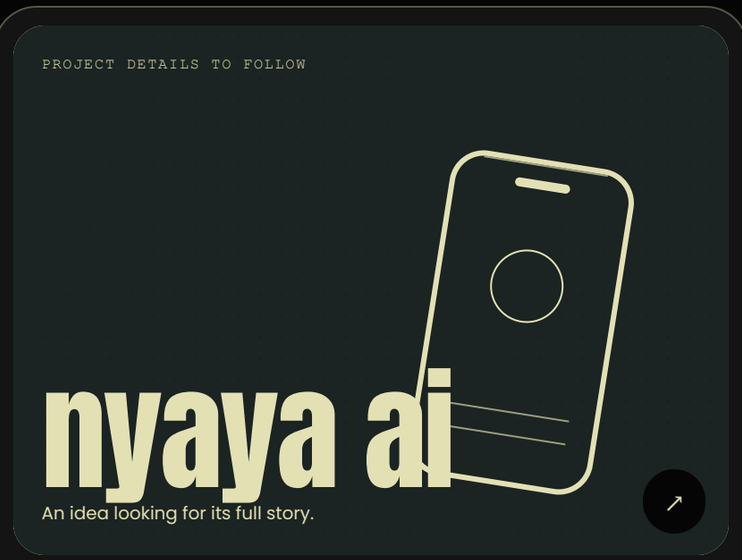

PYTHON · CLI · AGENTS

07 / WEB × OCCASION ↗

Sharon Weds Amala

A wedding RSVP website with event details, venue maps, Google Calendar support and Supabase-backed responses.

08 / AI × EXPLORATION ↗

Nyaya AI

An owner-supplied AI project added to the portfolio. The case study, public repository and implementation details are ready to be linked here.

REACT SUPABASE RSVP

AI CASE STUDY IN PROGRESS

Add the public Nyaya AI repository or live URL when available.

Original cover studies, not product screenshots. Follow each project to explore the source.

07 / HOBBIES & SKILLS

BEYOND WORK

THE OTHER SIDE OF ME.

Photography, reading and writing are a big part of my life beyond coding and events. These are the interests I enjoy and the creative skills I practise.

01

01

THE DOMAIN

Photography

Composition, lighting and visual storytelling.

ANOTHER WAY OF LOOKING

02

02

THE DOMAIN

Poetry

Creative writing, imagery and finding the right words.

ANOTHER WAY OF LOOKING

03

03

THE DOMAIN

Literature

Close reading, interpretation and exploring different perspectives.

ANOTHER WAY OF LOOKING

04

04

THE DOMAIN

Research

Asking questions, connecting ideas and writing clearly.

ANOTHER WAY OF LOOKING

05

05

THE DOMAIN

Psychology

Observing behaviour, listening and understanding people.

ANOTHER WAY OF LOOKING

Different interests. Skills I bring back to everything I make.

08 / THE WRITING DESK

WORDS / REFLECTION / LITERATURE

A SOFTER KIND OF SIGNAL.

Between building systems and bringing people together, I leave a little room for words. The kind that don’t need a dashboard.

FROM AN OPEN NOTEBOOK

Silence.

and everything in between.

A PERSONAL BLOG ↗

The Life of Tommy

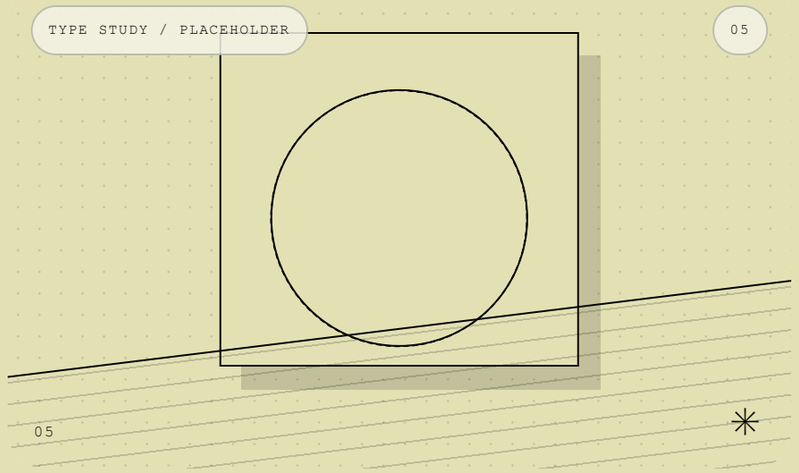

Perspective, solitude and reflection. A small corner of the internet for a mind that rarely sits still.

POETRY · LITERATURE · REFLECTION

Read the blog ↗

TYPE STUDY / PLACEHOLDER

05

LEAVE ROOM FOR WONDER.

An editorial placeholder for original poetry and printed experiments.

CURIOUS MIND. A CREATIVE PRACTICE. ✳ A CURIOUS MIND. A CREATIVE PRACTICE. ✳ A CURIOUS MIND. A CREATIVE PRACTICE. ✳ A CURIOUS MIND. A CREATIVE PRACTICE.
